WARRANT CONTROL REPORT

The Warrant Control Report is now available. The report had been temporarily removed due to performance issues which caused stress and slowness of the system. The new version was designed to run efficiently, and therefore, some search parameters that were not used have been removed from the screen. The new version can be selected by defendant's name, action date, last action code, or to whom the warrant was issued.

WARRANT MODIFICATION

As a result of suggestions from MDJ workshop sessions, help desk calls, and the MDJ Technical Committee (sub-committee of SCJAP), the name of the charging officer has been added to the warrant forms. The officer's name, as recorded on the citation or complaint entry screen, will print in the boxed area below the coat of arms.

DOCKET TRANSCRIPT

The Clerk of Courts page of the docket transcript will no longer print instructions for mailing the docket transcript to AOPC after final disposition and sentencing. The address information used to appear in the lower right hand corner of the form.
