GRADING OF FINAL CHARGES

Effective September 29, the Final Charge Entry screen will require the Grading field to be completed with a grading code. With the exception of a cancel (CNCL) disposition, an error message will display if you press Enter at the Final Charge Entry screen and the grade is not recorded. As you are aware, statutes that set forth the grade will have the grade populated for you in the grade field. Otherwise, you will need to record it in the Grade field by typing the grade or selecting it from a pop-up window by pressing F4.
