

ACKNOWLEDGMENTS

The Administrative Office of Pennsylvania Courts' Public Access Ad Hoc Committee would like to thank the many individuals and organizations who assisted our efforts in developing a proposed public access policy governing electronic case records. The Committee is particularly appreciative of the thoughtful comments that were offered in response to solicitations for public input. This input was extremely beneficial to the Committee as it refined its final proposal.

The Committee would also like to thank the many AOPC staff who tirelessly provided administrative and research assistance, specifically Deb Weber, Cynthia Screen, Kay Shaffer, Michael Callaghan, Erin Loucks, Shannon Black and Michael Crotty. The Committee is also grateful for the technical guidance and expertise offered by Amy J. Ceraso, Director of Judicial Automation, and her staff.

The Committee sincerely appreciates the guidance and wisdom offered by Chief Justice Emeritus Stephen A. Zappala, as the Committee worked toward developing final policy recommendations.

And finally, the Committee wishes to acknowledge the support, patience and foresight of Zygmunt Pines, Court Administrator of Pennsylvania, who recognized and stressed the critical importance of creating a thorough process to ensure the integrity of the courts' information while continuing to provide public access.
